

Please note the Claims as presently amended and listed on pages 2, 3 3 herein.
In the Claims

1. (newly amended) A protective cover for a heat emitting structure, comprising a fabric and an attachment means, the fabric transferring heat from the heat emitting structure to attract at least some animals, and the attachment means configured to removably couple the fabric to an exterior surface of a vehicle.
2. (original) The cover of claim 1, wherein the fabric presents a sensual quality pleasant to at least a plurality of cats.
3. (original) The cover of claim 1, the fabric presents a sensual quality pleasant to at least a plurality of dogs.
4. (newly amended) The cover of claim 1, wherein the fabric ~~[[provides]]~~ comprises a material emitting an odor pleasant to at least some animals.
5. (original) The cover of claim 4, wherein the fabric ~~[[provides]]~~ comprises a material emitting an odor pleasant to at least a plurality of cats.
6. (original) The cover of claim 1, wherein the fabric comprising fleece.
7. (original) The cover of claim 1, wherein the fabric has a planar quadrilateral surface of about four feet by four feet.
8. (original) The cover of claim 1, wherein the fabric further comprises a pillow section.
9. (original) The cover of claim 1, wherein the fabric further comprises a planar surface having a shape selected from the group of shapes consisting of a quadrilateral, a rectangle, a diamond, a circle, and an ellipse.

10. (original) The cover of claim 1, wherein the fabric having a planar surface having a shape selected from the group of shapes consisting of a cartoon character, a signage and a logo.
11. (original) The cover of claim 1, wherein the fabric has a surface configured to visually display a signage.
12. (cancelled) The cover of claim 1, wherein the fabric has an attachment means, the attachment means for removably coupling the fabric to the heat emitting structure.
13. (newly amended) The cover of claim 14, wherein the fabric is configured for roll-up.
14. (newly amended) [[The cover of claim 1,]] A protective cover for a heat emitting structure, comprising a fabric and an attachment means, the fabric transferring heat from the heat emitting structure to attract at least some animals, and the attachment means configured to removably couple the fabric to a vehicle, wherein the fabric further comprises an aperture configured for removably attaching the cover for storage by hanging.
15. (newly amended) A protective cover for a heat emitting structure, the cover having a top sheet and a bottom sheet, the top sheet configured to support an animal and the bottom sheet configured to be applied against an exterior surface of the heat emitting structure.
16. (original) The cover of claim 15, wherein the top sheet comprises a fabric comfortable to a plurality of cats.
17. (original) The cover of claim 15, wherein the top sheet comprises a fabric comfortable to a plurality of dogs.

18. (previously presented) A cover for use as a cushion for a cat, the cover comprising:

a pad having a top and an opposing bottom, the top forming a cat engaging surface whereon the cat can lie in direct engagement with the top of the pad; and a plurality of magnets, the plurality of magnets coupled with the pad, and the plurality of magnets positioned to enable removable attachment of the cover to a metallic hood of a vehicle.

19. (original) The cover of claim 18, wherein the pad is configured for placement proximate to a heat emitting equipment of a vehicle.

20. (original) The cover of claim 19, wherein the pad is configured for placement proximate to a protective hood of the heat emitting equipment, whereby the cat may receive heat emitted by the equipment when the cat is proximate to the cover.
